

Perfection in Timber.

Getting better every day: HS Timber Productions Radauti factory

The Radauti factory is the second production unit built by **HS Timber Productions** in Romania, in 2008. The beam production line is the most modern in Romania and was specially designed for the Japanese market.

"The beam production line in Radauti is state-of-the-art and the thermo-electric plant using biomass is one of the largest in the country. Once again, HS Timber Productions proved its commitment to safe jobs, economic growth of the communities it is active in, and sustainability."

Dan Bănac
General Manager
HS Timber Productions

HS Timber Group is one of Europe's leading wood processing companies. The company operates one modern sawmill, a post and beam production, and one blockboard factory in Romania as well as a sawmill in Kodersdorf, Germany and one in Luvia, Finland. Its high-quality timber products are available in more than 70 countries worldwide.

Did you know that...?

... **planed timber** is primarily used in construction, for both interior and exterior works? It is ideal for fencing, building frames, or making garden furniture.

... **sawn timber** can be used for carpentry products, windows and doorframes that require painting, exterior lining and interior panels?

Radauti sawmill: facts and figures

Opened in	2008
Plant size	50 ha
Cutting*	1.45 million m ³
Planing*	580,000 m ³
Kiln drying*	792,000 m ³
Laminated products*	115,000 m ³ Post 135,000 m ³ Beams
Pellets*	66,000 t
Combined heat and power plant*	10 MW _{el} /28 MW _{therm}
Produces	glued timber, pellets, green energy
Processes	fir, spruce, pine
Exports to	Japan, USA, Romania, Saudi Arabia, Pakistan (main markets)

The cutting line is shut down since end of March 2022.

**Production capacity per year*

Unique security architecture: GPS tracking system Timflow

HS Timber Productions only purchases wood from 100% secure sources. We use the Timflow GPS system in Romania, which monitors each saw log truck's exact transport route, from the loading point to the mill gate. This is a voluntary system, surpassing all legal requirements by far. All collected data, including full GPS maps of the route and photos of the loaded trucks before departure, is public on www.timflow.com.

CSR at a glance: Tomorrow's Forest

HS Timber Group and the Tomorrow's Forest Foundation have forged a strategic partnership for joint implementation of environmental and social projects that promote responsible development of Romanian forests and benefit Romanian forestry communities. By entering into this strategic alliance, the HS Timber aims to implement the company's CSR commitment more purposefully and more effectively. Further information can be found on www.padureademaine.ro/en/.
